Contents

VOLUME 7, NUMBER 1, MARCH 1982

N. D. CHRISTENSEN and R. D. LEWIS: The circadian locomotor rhythm of *Hemideina thoracica* (Orthoptera; Stenopelmatidae): the circadian clock as a population of interacting oscillators 1–13

L. D. HATFIELD, J. L. FRAZIER and J. FERREIRA: Gustatory discrimination of sugars, amino acids, and selected allelochemicals by the tarnished plant bug, *Lygus lineolaris* 15–23

DARRELL MOORE and MARY ANN RANKIN: Direction-sensitive partitioning of the honeybee optomotor system 25–36

JAMES O. PALMER: Photoperiodic effect on size-related metamorphosis in the milkweed leaf beetle, *Labidomera clivicollis* 37–41

MARLEN PETERSEN, KLAUS KALMRING and ANDREJ COKL: The auditory system in larvae of the migratory locust 43–54

ALEXANDER S. RAIKHEL and ARDEN O. LEA: Abnormal vitelline envelope induced by unphysiological doses of ecdysterone in *Aedes aegypti* 55–64

ASHOK K. RAINA: Daily rhythms in the sorghum shootfly, *Atherigona soccata*: oviposition, egg-hatch and adult eclosion 65–70

R. C. STEWARD: Comparison of the behavioural and physiological responses to humidity of five species of dry-wood termites, *Cryptotermes* species 71–82

M. R. STRAND and S. B. VINSON: Source and characterization of an egg recognition kairomone of *Telenomus heliothidis*, a parasitoid of *Heliothis virescens* 83–90

R. J. SYMONDS and D. M. UNWIN: The use of a microcomputer to collect activity data 91–98

M. TAKEDA and G. M. CHIPPENDALE: Environmental and genetic control of the larval diapause of the Southwestern corn borer, *Diatraea grandiosella* 99–110

DOUGLAS W. WHITMAN: Grasshopper sexual pheromone: a component of the defensive secretion in *Taeniopoda eques* 111–115

BOOK REVIEW and BOOK NOTICES 117–118

VOLUME 7, NUMBER 2, JUNE 1982

M. C. CAMMAERTS, R. P. EVERSHED and E. D. MORGAN: Mandibular gland secretions of workers of *Myrmica rugulosa* and *M.schenki*: comparison with four other *Myrmica* species 119–125

ALBERT D. CARLSON, JONATHAN COPELAND and RONALD SHASKAN: Flash communication between the sexes of the firefly, *Photuris lucicrescens* 127–132

ELIZABETH M. CHADD and JOHN BRADY: Sublethal insecticide effects on the probing responsiveness of tsetse flies and blowflies 133–141

M. G. CHAPMAN: Experimental analysis of the pattern of tethered flight in the Queensland fruit fly, *Dacus tryoni* 143–150

C. T. DAVID: Competition between fixed and moving stripes in the control of orientation by flying *Drosophila* 151–156

JAMES H. FULLARD: Cephalic influences on a defensive behaviour in the dogbane tiger moth, *Cycnia tenera* 157–162

ANDREW L. HOLLANDER and CHIH-MING YIN: Neurological influences on pheromone release and calling behaviour in the gypsy moth, *Lymantria dispar* 163–166

P. M. HUYTON and P. A. LANGLEY: Copulatory behaviour of the tsetse flies *Glossina morsitans* and *G.austeni* 167–174

GERALD KASTBERGER: Evasive behaviour in the cave-cricket, *Troglophilus cavicola* 175–181

AKIRA KOMATSU: Respiratory nervous activity in the isolated nerve cord of the larval dragonfly, and location of the respiratory oscillator 183–191

Contents

ANDREW L. HOLLANDER and CHIH-MING YIN: Neurological influences on pheromone release and calling behaviour in the gypsy moth, *Lymantria dispar* 163–166

P. M. HUYTON and P. A. LANGLEY: Copulatory behaviour of the tsetse flies *Glossina morsitans* and *G.austeni* 167–174

GERALD KASTBERGER: Evasive behaviour in the cave-cricket, *Troglophilus cavicola* 175–181

AKIRA KOMATSU: Respiratory nervous activity in the isolated nerve cord of the larval dragonfly, and location of the respiratory oscillator 183–191

L. P. S. KUENEN and T. C. BAKER: Optomotor regulation of ground velocity in moths during flight to sex pheromone at different heights 193–202

WALTER PFLUMM and KARL WILHELM: Olfactory feedback in the scent marking behaviour of foraging honeybees at the food source? 203–207

JÜRGEN RHEINLAENDER and GABRIELE BLÄTGEN: The precision of auditory lateralization in the cricket, *Gryllus bimaculatus* 209–218

J. J. B. SMITH and W. G. FRIEND: Feeding behaviour in response to blood fractions and chemical phagostimulants in the black-fly, *Simulium venustum* 219–226

KEIKICHI UCHIDA and KATSUHIKO SUZUKI: Elimination of protein-food ingested into the crop, and failure of ovarian development in female mosquitoes, *Culex pipiens pallens*. II. Effect of sugar-free egg albumin 227–230

BOOK REVIEW and BOOK NOTICES 231–234

VOLUME 7, NUMBER 3, SEPTEMBER 1982

T. W. COATES and P. A. LANGLEY: The causes of mating abstention in male tsetse flies, *Glossina morsitans* 235–242

P. E. COOMBE: Visual behaviour of the greenhouse whitefly, *Trialeurodes vaporariorum* 243–251

K. DEURA and J. C. HARTLEY: Initial diapause and embryonic development in the speckled bush-cricket, *Leptophyes punctatissima* 253–262

J. A. GREENBLATT, P. BARBOSA and M. E. MONTGOMERY: Host's diet effects on nitrogen utilization efficiency for two parasitoid species: *Brachymeria intermedia* and *Coccygomimus turionellae* 263–267

K. H. HOFFMANN and W. BEHRENS: Free ecdysteroids in adult male crickets, *Gryllus bimaculatus* 269–279

M. D. R. JONES: Coupled oscillators controlling flight activity in the mosquito, *Culex pipiens quinquefasciatus* 281–289

A. R. JUTSUM, N. L. ROBINSON and G. J. GOLDSWORTHY: Effects of flight training on flight speed and substrate utilization in locusts 291–296

ULLA KLEIN: The articulation of cricket palps: morphology and movement patterns in behaviour 297–314

M. F. RYAN and P. M. GUERIN: Behavioural responses of the carrot fly larva, *Psila rosae*, to carrot root volatiles 315–324

S. J. SIMPSON: Patterns in feeding: a behavioural analysis using *Locusta migratoria* nymphs 325–336

SUSAN K. SMITH and MICHAEL D. BREED: Olfactory cues in discrimination among individuals in dominance hierarchies in the cockroach, *Nauphoeta cinerea* 337–341

DOREEN WATLER: Influence of social situation on food consumption and growth in nymphs of the house cricket, *Acheta domesticus* 343–350

BOOK REVIEW and BOOK NOTICES 351–352

VOLUME 7, NUMBER 4, DECEMBER 1982

R. J. BARTELL: Mechanisms of communication disruption by pheromone in the control of Lepidoptera: a review 353–364

JÜRGEN ASCHOFF and URSULA VON SAINT PAUL: Circadian rhythms in the blowfly, *Phormia terraenovae*: the period in constant light 365–370

C. H. BELL: Observations on the intensity of diapause and cold tolerance in larvae from twelve populations and two reciprocal crosses of the Indian meal moth, *Plodia interpunctella* 371–377

T. BRIERS, M. PEFEROEN and A. DE LOOF: Ecdysteroids and adult diapause in the Colorado potato beetle, *Leptinotarsa decemlineata* 379–386

S. FINCH and G. SKINNER: Upwind flight by the cabbage root fly, *Delia radicum* 387–399

J. B. FREE and A. W. FERGUSON: Transfer of pheromone from immature queen honeybees, *Apis mellifera* 401–406

VINCENT C. HENRICH and DAVID L. DENLINGER: Selection for late pupariation affects diapause incidence and duration in the flesh fly, *Sarcophaga bullata* 407–411

T. HOFMANN and U. BÄSSLER: Anatomy and physiology of trochanteral campaniform sensilla in the stick insect, *Cuniculina impigra* 413–422

L. P. S. KUENEN and THOMAS C. BAKER: The effects of pheromone concentration on the flight behaviour of the oriental fruit moth, *Grapholitha molesta* 423–434

J. MURLIS, B. W. BETTANY, J. KELLEY and L. MARTIN: The analysis of flight paths of male Egyptian cotton leafworm moths, *Spodoptera littoralis*, to a sex pheromone source in the field 435–441

Y. OBARA and S. TAMAZAWA: A behavioural gynandromorph of *Bombyx mori* 443–448

RUDOLPH L. PIPA: Neural influence on corpus allatum activity and egg maturation in starved virgin *Periplaneta americana* 449–455

R. SIEBER and R. H. LEUTHOLD: Repeated copulation and testes enlargement in *Macrotermes michaelseni* 457–465

A. D. M. YOUNG and A. E. R. DOWNE: Renewal of sexual receptivity in mated female mosquitoes, *Aedes aegypti* 467–471

BOOK NOTICES 473–474

EDITORIAL VALEDICTION 475–476
